

Seventh Advanced Course in Operator Theory and Complex Analysis

El Puerto de Santa María, 20th–24th June 2010

Anton D. BARANOV *Model subspaces of the Hardy space.*

St. Petersburg State University (Russia)

Alexei POLTORATSKI *Completeness of families of exponential functions
in L^2 -spaces.*

Texas A & M University (U.S.A.)

Serguei SHIMORIN *Shift invariant subspaces in Bergman spaces.*

KTH (Sweden)

Alexander VOLBERG *Bellman function, weights and singular integrals.*

Michigan State University (USA)

ORGANIZERS: Sergio Bermudo Navarrete, Manuel Cepedello Boiso and Alfonso Montes Rodríguez
COLLABORATORS: Francisco Canto Martín and Andreea Sarafoleanu
