

International School on Combinatorics Pilar Pisón-Casares

January 25-30, 2010. Sevilla (Spain)

Organized by the Department of Algebra and the Mathematical Research Institute of the University of Sevilla (IMUS)
at the Faculty of Mathematics.

LECTURERS:

- **Klaus Altmann.** Freie Universität Berlin, Germany
The combinatorics of polyhedral divisors
- **Ezra Miller.** Duke University, USA
Primary decomposition of binomial ideals
- **Mercedes H. Rosas.** Universidad de Sevilla, Spain
Symmetric function approach to representation theory and applications

Organizers:

- Alberto Castaño Domínguez (Universidad de Sevilla)
 - María Cruz Fernández Fernández (Universidad de Sevilla)
 - Jaime Lugo Gómez (Universidad de Valladolid)
 - José Navarro Garmendia (Universidad de Extremadura)
- Contact e-mail: iscpp2010@us.es

Scientific Committee:

- Antonio Campillo López (Universidad de Valladolid)
- Francisco J. Castro Jiménez (Universidad de Sevilla)
- Ignacio Ojeda Martínez de Castilla (Universidad de Extremadura)

With the collaboration of:

- Facultad de Matemáticas. Universidad de Sevilla
- Departamento de Matemáticas. Universidad de Extremadura
- Departamento AGT. Universidad de Valladolid
- Research Group on Computational Methods in D-modules
- Research Group SINGACOM
- Research Group on Algebraic and Differential Geometry
Computational Algebra
